

WORKING FOR U.S. EVERY DAY

Securing our borders... Safeguarding our banking system... Feeding our school children... Making Medicare available... Looking after our free elections... Collecting our country's revenue...

Protecting consumers... Watching over our energy supply... Preserving our parks... Managing our national budget... Protecting our air and water... Securing our patents and trademarks... Ensuring food and drug safety... Looking after our investments

As Americans, we lead busy lives and it is easy to overlook the contributions to the country of the working men and women of the federal government, but the reality is federal employees have a direct and profound impact on our lives every day.

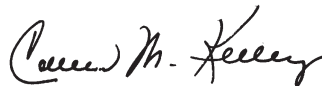

Colleen M. Kelley

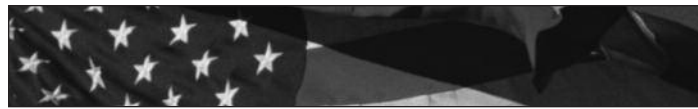

As the largest independent union of federal workers, the National Treasury Employees Union, representing 150,000 federal employees in 31 different agencies, believes it is important to remember and honor the contributions of federal employees to our country and the quality of our lives as Americans.

Federal employees—who make up one of the most highly-educated and dedicated workforces in the world—see public service as a proud calling. They are honored to serve our country and do so with dedication and commitment.

Every day, in so many vital ways, the hard-working public servants of the federal government touch our lives and the lives of those we love. So, thank a federal employee. They work for U.S. every day.

Colleen M. Kelley
NTEU National President

FEDERAL EMPLOYEES...

THEY WORK FOR U.S.

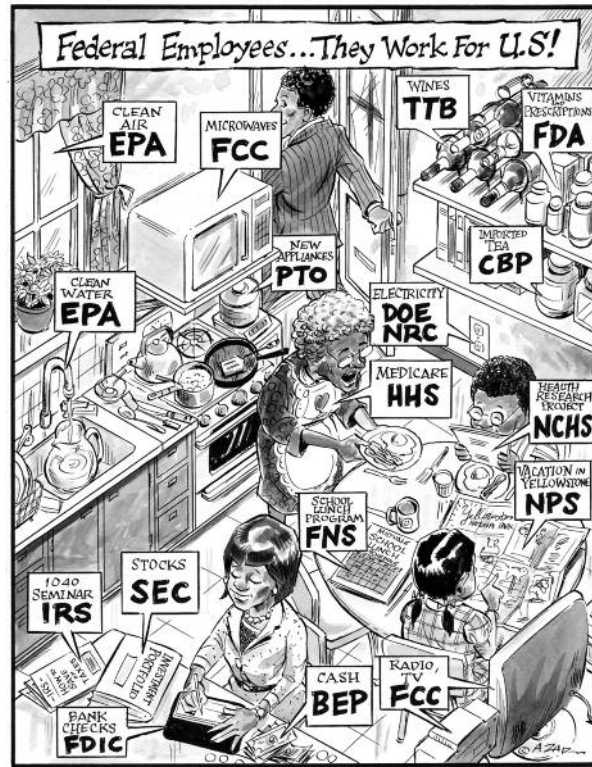

NTEU

The National Treasury Employees Union

A DAY IN YOUR LIFE... DID YOU KNOW?

FEDERAL EMPLOYEES WORK HARD EVERY DAY TO BETTER OUR LIVES.

- ★ When you wake up each morning know that employees at the **Environmental Protection Agency (EPA)** are working to ensure that the water you use to shower, cook and brush your teeth is free from pollution and contamination.
- ★ When you take medication relax because employees at the **Food and Drug Administration (FDA)** are making certain that it is both safe and effective.
- ★ When you use an electrical appliance to cook, clean, study or work from home do so without worry because employees at the **Department of Energy (DOE)** and the **Nuclear Regulatory Commission (NRC)** are working hard to ensure that if there is nuclear power behind that electricity, it has been developed responsibly.
- ★ When your child eats a meal served at school don't fret. Employees at the **Food and Nutrition Service (FNS)** are hard at work ensuring that state and local agencies have easy access to programs that help plan proper nutritional diets.
- ★ When you deposit your paycheck in a bank feel confident that employees at the **Federal Deposit Insurance Corporation (FDIC)** are on the job ensuring that your hard-earned money is federally insured against defaults in the industry.
- ★ When you pay for lunch with a worn-out \$10 bill let it go. Employees at the **Bureau of Engraving and Printing (BEP)** are printing more notes to distribute into America's currency circulation.

- ★ When you buy and trade stock online do not be concerned. Employees at the **Securities and Exchange Commission (SEC)** safeguard your investments against fraud and theft.
- ★ When you watch television or listen to the radio be aware that employees at the **Federal Communications Commission (FCC)** bring oversight and fair competition to media outlets and cable companies nationwide.
- ★ When you relax at the end of the day with a cold beer or glass of wine enjoy it because employees at

the **Tax and Trade Bureau (TTB)** are battling consumer fraud by ensuring that your beverages are being produced and labeled properly.

- ★ When you go shopping feel secure because employees at the **Patent and Trademark Office (PTO)** are making certain that you can trust the authenticity and originality of the products you buy.
- ★ When you and your family go about your daily activities in your community do so safely because employees at **U.S. Customs and Border Protection (CBP)** are protecting and defending us from terrorism, illegal drugs and weapons, contraband and criminals seeking to enter our country.
- ★ When you go on vacation explore our country's wilderness. Employees at the **National Park Service (NPS)** preserve our nation's vast array of natural and cultural resources through research, preservation and educational initiatives.
- ★ When your older relatives visit rest assured that employees at the **Department of Health and Human Services (HHS)** are working to meet their Medicare needs and protect their health.
- ★ Each day know that the employees of the **Internal Revenue Service (IRS)** are collecting the funds, equitably and fairly, that support the critical government services we all depend on.

Federal employees keep our nation vital and strong.
